

Arctiva / Comp 7 Insulated Jacket / \$225

Arctiva's Comp 7 Jacket has multi-thickness insulation and oversized pit vents to regulate a snowmobiler's body temperature while riding. The coat is made from waterproof nylon and features sealed seams to ward off moisture, and a new double-cuff system is designed to increase comfort around the wrists. Add \$20 for big-guy sizes. Comp 7 bib and glove is also available.

EarthX / Lithium Replacement Battery / From \$199

EarthX lithium batteries are drop-in replacements for standard 12-volt power cells. They're designed specifically for powersports vehicles and weigh up to 80 percent less than lead-acid batteries, the company claims. Replacement is simple with universal terminal polarity and EarthX batteries are maintenance free. Batteries are available for a wide range of snowmobiles.
